## 2006 Transportation Studies

# CALL FOR IDEAS!

Let's work together to  
improve transportation  
in Miami-Dade County!

Metropolitan Planning  
Organization for the  
Miami Urbanized Area

Metropolitan Planning  
Organization for the  
Miami Urbanized Area

The Miami-Dade Metropolitan Planning Organization (MPO) is seeking new ideas for transportation planning studies. Ideas submitted will be considered for inclusion in the Unified Planning Work Program for Transportation (UPWP). The UPWP describes the transportation planning activities to be completed during 2006 for the metropolitan area. Please forward your idea(s) via fax, phone, e-mail to the addresses listed on this brochure, or simply return this form (see form on other side). The deadline for submissions is January 13, 2006. Should you have any questions, contact the MPO project manager, Mr. Oscar Camejo.

Miami River

Play a Part in  
GOVERNMENT!

Miami-Dade County is one of the most congested cities in the United States in terms of vehicular traffic. The MPO, is responsible for transportation planning in Miami-Dade County.

Ocean Drive

The MPO is guided by its Governing Board which consists of twenty-two (22) voting members as follows: thirteen (13) Miami-Dade County Commissioners; a representative from the citizenry of unincorporated Miami-Dade County; a member of the Miami Dade School Board; a member of the Miami-Dade Expressway Authority; and an elected official representing each municipality with 50,000 residents or over which include the cities of Hialeah, Miami, Miami Beach, Miami Gardens, and North Miami; and a representative for the remaining cities of Miami-Dade. Transportation planning studies are incorporated in the Unified Planning Work Program for Transportation (UPWP). This document is prepared every year. The MPO is seeking new ideas to study ways to help alleviate traffic congestion in Miami-Dade County. Ideas selected will be included by a committee of transportation professionals as studies for adoption by the Governing Board. This is your opportunity to get involved and make a difference!

## UPWP

The following is one example from a previous program year (condensed):

**Title:** Reversible Traffic Flow Study

**Objective:** To determine whether there are opportunities for implementing reversible flow operations on roads in Miami-Dade County.

**Tasks:** Develop study advisory committee, perform background research, data development, section of five potential candidates, analyze selection(s).

**End Product:** Develop an action plan and prepare final report for selected roads to reverse the flow of traffic.
